Subject: Site Update

Importance: High

Hello Everyone!

I wanted to see if you have made any headway on the temporary closure plans or moving ahead with any work for the Erie site? We have very little tasks to complete today, we may not have a full day of work. Tomorrow we will remove the remaining drums from the drum cage and break down the fencing to get it off rent. The only other tasks at hand we have to complete would be decontaminating the equipment so we can have it picked up and taken of rent and breaking down the job trailer for it to be picked up as well. We also need to know if you want us to try to tarp the piles and pits with plastic to the best of our ability?

I do not mean to be pushy but we need information sooner than later. If we do not hear otherwise, we will commence with the decontamination and breakdown on Friday. We will also release all out of town people to fly home. There will be a couple of us around to help the equipment get picked up and to check on the site itself.

Thank you for your time!
